

# FOR THE ONE

## JUNE 2025 UPDATE

### Housing for individuals with the most complex physical and mental health needs in our city.

Through our partnership with Volunteers of America, For the One is helping fund a therapeutic community (housing!) to help stabilize individuals who are struggling to navigate sustainable housing and manage their mental health.

In most cases, these are people with severe mental illness. Phase 2 of this project will provide access to a therapist, case managers, housing specialists and other resources that are beyond the scope of what we can do at For the One Counseling. The Hi-Way 40 project is located right across the street from the Cares Campus. We were at the ground breaking on June 5, along with other city officials to celebrate this wonderful project!

### For The One Counseling

For the One Counseling (FTOC) is celebrating a powerful milestone this summer: one year of serving the community with professional, compassionate mental health care. Over 3,700 counseling sessions have been provided, 441 individual clients served, and more than \$80,000 in scholarships offered to ensure therapy is accessible.

As For the One Counseling looks to the future, the team remains committed to expanding their reach and continuing to create a safe, supportive space for healing. After one transformative year, it's clear: this is just the beginning.

### God Behind Bars

People are moving toward Jesus and their lives are changing! Through God Behind Bars, our team reaches hundreds of men in the Northern Nevada Correctional Center, bringing them the hope of Jesus. Our services are streamed there on Tuesday nights and many of these men have given their lives to Jesus! Amazing!
